We will bring you all of the CPT 2019 changes, and the heads up on the changes with diagnosis codes as well.

Sponsored by:

McVEY
SEMINARS

800-227-7888
33rd Year

Bring examples of your coding and reimbursement problems. We'll find the specific Cardiology solutions together!

(PLEASE BRING YOUR CPT BOOK)

Obtaining Rightful Payments From Insurances.

- Cardiology Specific procedures, such as Cardiac Cath and PCI's discussed and coded for maximum reimbursement.
- What are the documentation guidelines for procedures? E/M guidelines are well established but are you following the published guidelines for your procedures?
- Modifiers are your "Key to Reimbursement". Are you using the KX & SC modifiers correctly? Use of modifier is mandatory as of 1/1/17 for discarded drugs. Are you sure how use it.. What about modifiers JW and KX?
- Device implants have updates with modifiers and narrative directions.
- CPT unbundled moderate sedation from all of your procedures. Are you using and documenting the new codes properly? What payers need to pay for this service?
- Brief discussion on Non-Coronary (peripheral) procedural coding.

Cardiology Coding Techniques That Work!

- Cardiac Cath, Multiple PCI's coded at the same encounter. Clarification of the guidelines for PCI in Acute MI interventions.
- New and emerging technology codes.
- Coding myocardial contrast perfusion echocardiography.
- Coding for TAVR, TMVR, Melody valves, etc.
- ICD-10 2019 Cardiology coding changes/additions/deletions.

Advanced Cardiology Coding

- EP Studies and Ablation coding. Looking at 3-D mapping vs. Regular mapping and add on codes.
- What impact will coding "unspecified" diagnoses have on payment, now that the "honeymoon period" is ending with Medicare?
- Holters, Echo's, Event Monitors, Stress Tests and Stress Echo's. We have answers.
- Nuclear Cardiology Coding review. Making sure all components are captured and you're using modifiers when needed.
