About your seminar leader:

Ray Cathey, PA, FAAPA, CCS-P, MHA, MHS, CHCC, has a unique background in support of medical practices. He has assisted thousands of Physicians and staff across the U.S. over the past 35+ years. The result has been appropriate payments of insurance claims that would have otherwise been underpaid. Having degrees in health care administration and health care sciences, as a former registered nurse, and as one of the early certifications in the Physician Assistant Program, you will find Ray's knowledge extensive. His training and consulting work is based on current work-place experience and success in recovering maximum, rightful reimbursements for medical practices in both the fee-for-service and managed care/capitation arenas, as well as the newer reimbursement models, such as ACOs and medical homes. No one has trained more medical offices in insurance reimbursement across the nation. We count Ray Cathey as one of the top medical insurance coding and practice management experts in the country. We invite you to discover why and register today.
