Coding & Reimbursement Solutions for Inpatient & Outpatient

Prior Authorization and Interoperability

Thursday, July 11, 2019
10:00am to 11:00am PT
(11:00am to Noon MT, Noon to 1:00pm CT, 1:00pm to 2:00pm ET)
with Question/Answer included
Given by:
Terry A. Fletcher BS, CPC, CCC, CEMC, CCS, CCS-P, CMC, CMCS, ACS-CA, SCP-CA, QMCR, QMGC

Topics Covered
- Prior authorizations are not going anywhere anytime soon, but drastic changes to how they are handled may finally be on the horizon.
- Not only does the Pre Cert processes take time away from patients, but 78 percent of clinicians reported in an AMA survey that the delay can result in patients abandoning a particular course of treatment.
- Tips to reduce the burden of prior authorizations.
- All prior authorization calls by doctors or nurses requires time and resources. The insurance company prior authorization requirement and obstacle impedes timely and efficient provision of care.
- How to use technology to streamline prior authorizations.
- What is evidence-based practices?
- Give patients a plan. We can help with that.

How a Webinar Seminar Works:
1. Register by fax, mail or online. Cost is $199 per one of the following options - landline, computer or Ipad.
2. The audio/video portion for this course can be heard via landline, mobile or web browser. Major browsers on windows, MAC OS X & Linux.
3. You'll receive Dial-in access, and materials a few days before the program.
**WHAT IS MY PRACTICE IMPACT?**

- Inter-operability is real. How will or does this affect your practice?
- Interoperability is the ability of different information systems, devices or applications to connect, in a coordinated manner, within and across organizational boundaries to access, exchange and cooperatively use data amongst stakeholders, with the goal of optimizing the health of individuals and populations.
- The ability to find information quickly is just as important as access. But what do we do with all of this information?
- What are the "push" vs. "pull" approaches? We explain the details.
- The sharing of medical data is important, but is the content of this data integrity controlled?
- Consumers are very demanding, and will have a roll here. What is that roll?

**About your seminar leader:**
Ms. Terry Fletcher is a Healthcare Coding & Reimbursement Consultant and Auditor based in California.
