

PODIATRY

TWO days of indepth coding & billing for: Podiatry Physicians & Practice Coders

An educational workshop provided for
**The American College of
Foot & Ankle Orthopedics & Medicine**

Two full days of coding for physicians and staff given by:
Michael Warshaw, DPM, CPC, FACFAOM
Healthcare Consultant, Practicing Podiatrist, Certified Coder

Are you aware of the new and revised ICD-10-CM
codes that apply to Podiatry? Non-pressure Ulcers (L97.-)
are classified by Grade and Pressure Ulcers are classified by Stage.
Do you know these Classifications?

Certification as a Podiatry coder? This in-depth training may be all you need to take a certification test. We recommend learning more at ACFAOM.org

Handle Special Podiatry Situations

- Update of ICD-10
- How to appropriately use the ICD-10 Manual

About your seminar leader:

Michael G. Warshaw, DPM, CPC, FACFAOM, is a practicing podiatrist and a certified coder with over 25 years of successful coding, management, and training experience for podiatric practices. His national and local views come from active participation as a practicing podiatrist, having the distinction of being a certified podiatric coding specialist, and years of serving as a national lecturer concerning coding issues. Dr. Warshaw's experience is unique and comprehensive. He has the additional advantage of being an "Expert Witness" in all facets of the Medicare Appeal Process, having participated in "Redeterminations," "Reconsiderations," "Administrative Law Judge Hearings," and the actual court system. This unique prospective provides attendees the opportunity of learning solutions to their insurance and coding problems from "real world" experience, both in Dr. Warshaw's instruction and the "on-site networking" in this specialty only workshop. Dr. Warshaw is committed to assist podiatric practices in learning to code appropriately, obtain the proper reimbursement, and to avoid the wrath of the carriers by coding and subsequently billing in an appropriate fashion.

WE PROVIDE ANSWERS

- With wound care as prevalent as it is today, what is the most appropriate debridement code to use?
- The appropriate use of Modifiers 25 and 59 are the two MOST audited issues in Podiatry. Are you using these two Modifiers correctly?
- Does using a "rule out" diagnosis hurt the patient's insurance coverage?
- Do "Medicare's Correct Coding Guidelines" apply to private and commercial insurance companies?
- What about patients who return for follow-up services and end up being treated for new problems. Which condition becomes the primary diagnosis?
- My doctor thinks if we appeal "denials" we will be singled out for future audits or even delays on our claims. Is that true?
- We're confused about levels of service filed on the same day as procedures, do we or don't we get paid for them?
- I have heard "Nursing Home visits" and "Home Visits" are targeted services for audits. Should I stop doing them altogether or is there a proper way to document them so that if I am audited, I can pass the audit?
- With Medicare, isn't it easier to file for "office visits" instead of "routine foot care and mycotic nails" and not have to worry about the 61 day eligibility period?

The McVey Guarantee

We unconditionally guarantee your full tuition for up to one year. After attending, if you did not feel the investment worthwhile, please write to us with your comments. We believe in the value of our seminars and services - and we think you will too!
