## About your seminar leader:

Michael G. Warshaw, DPM, CPC, FACPM, is a practicing podiatrist and a certified coder with over 25 years of successful coding, management, and training experience for podiatric practices. His national and local views come from active participation as a practicing podiatrist, having the distinction of being a certified podiatric coding specialist, and years of serving as a national lecturer concerning coding issues. Dr. Warshaw's experience is unique and comprehensive. He has the additional advantage of being an "Expert Witness" in all facets of the Medicare Appeal Process, having participated in "Redeterminations," "Reconsiderations," "Administrative Law Judge Hearings," and the actual court system. This unique prospective provides attendees the opportunity of learning solutions to their insurance and coding problems from "real world" experience, both in Dr. Warshaw's instruction and the "on-site networking" in this specialty only workshop. Dr. Warshaw is committed to assist podiatric practices in learning to code appropriately, obtain the proper reimbursement, and to avoid the wrath of the carriers by coding and subsequently billing in an appropriate fashion.

## WE PROVIDE ANSWERS

- With wound care as prevalent as it is today, what is the most appropriate debridement code to use?
- The appropriate use of Modifiers 25 and 59 are the two MOST audited issues in Podiatry. Are you using these two Modifiers correctly?
- Does using a "rule out" diagnosis hurt the patient's insurance coverage?
- Do "Medicare's Correct Coding Guidelines" apply to private and commercial insurance companies?
- What about patients who return for follow-up services and end up being treated for new problems. Which condition becomes the primary diagnosis?
- My doctor thinks if we appeal "denials" we will be singled out for future audits or even delays on our claims. Is that true?
- We're confused about levels of service filed on the same day as procedures, do we or don't we get paid for them?
- I have heard "Nursing Home visits" and "Home Visits" are targeted services for audits. Should I stop doing them altogether or is there a proper way to document them so that if I am audited, I can pass the audit?
- With Medicare, isn't it easier to file for "office visits" instead of "routine foot care and mycotic nails" and not have to worry about the 61 day eligibility period?
