Breaking News for 2022

- E/M level to be chosen based on Medical Decision Making OR Time - NOT BOTH!!!
- Report Time only when MDM is NOT the better leveling option.
- Learn practical tips to document activities included AND not included in the New Time definition. Exactly whose time counts?

- Be prepared for post COVID-19 audits on services provided during the PHE. Estimates are that \$4 billion will be recouped for 2020 PHE services.
- While these changes lifting significant documentation burden are welcome news, they apply only to new and established office codes / not hospital services.
- Records that are not properly signed and dated are considered services billed but not performed.
- We'll bring you the latest Depression Assessment billing guidelines.
- Painting an accurate picture of the patient's condition and co-morbidities is essential for quality, value and outcomes reporting necessary for MACRA.
- We'll teach you to look at your Coding Patterns through the hypercritical eyes of an outside auditor. Know the hidden dangers of Audit errors across a "Paid Claims Universe".
- Big changes are coming to the definition and reimbursement for Global Package. We will bring you the latest. What is the 4th trimester?
